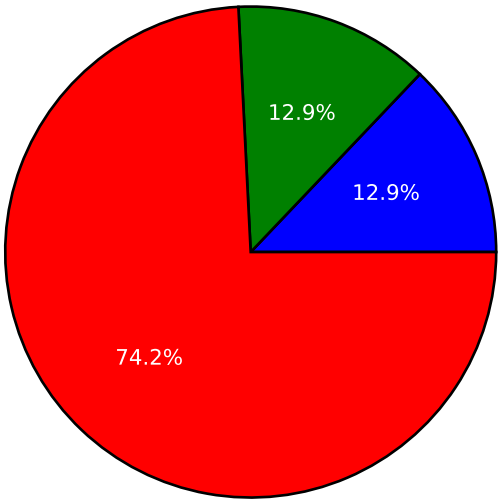
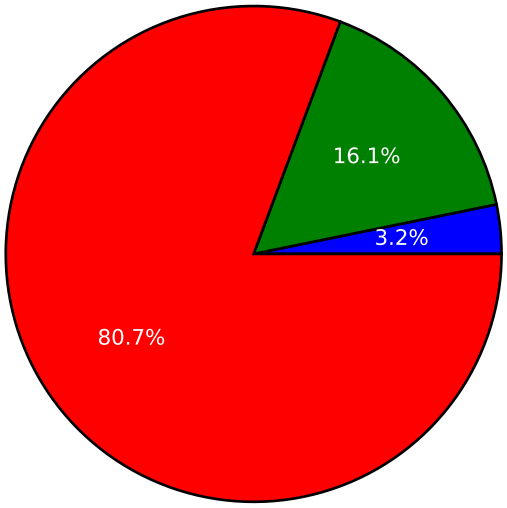
Glucose, Lactose, Sucrose, Oh' My!

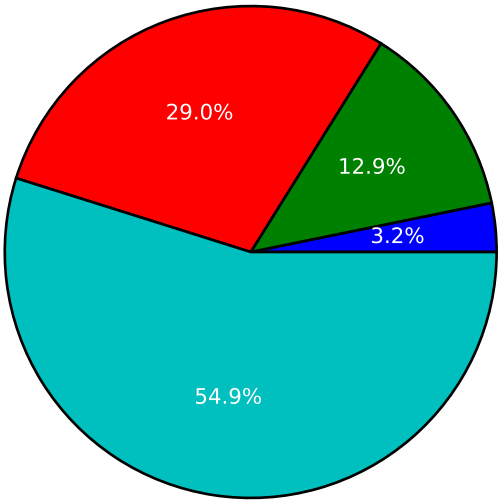
I felt comfortable asking questions at the workshop.



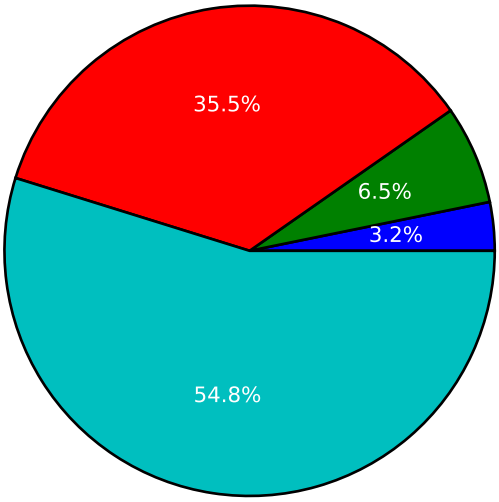
I enjoyed the workshop and learned something interesting.



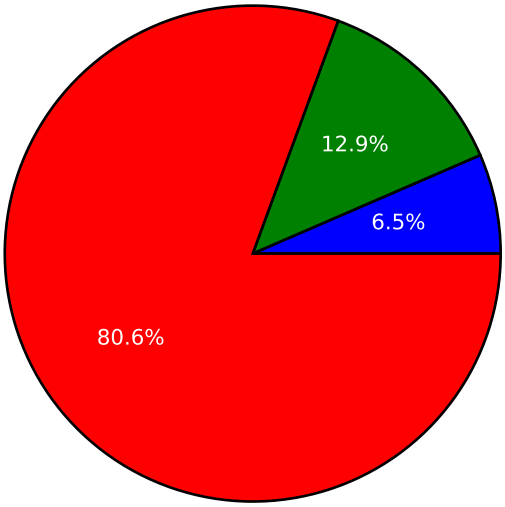
I think I would enjoy the workshop leaders' job.



The workshop made me feel like I can have a job in science, engineering or math.



I enjoyed listening to my workshop leader give their presentation.



Comments

I love the way that there were different effects for each test strip and it changed each 30 seconds to show a different concentration. <3 Everyone was very helpful

Thank you guys for helping me in the experiment. Also not getting mad when I accidentally dropped the water.. :)

It was really cool!
