

"Scalpel, please": The Pathway to Surgery

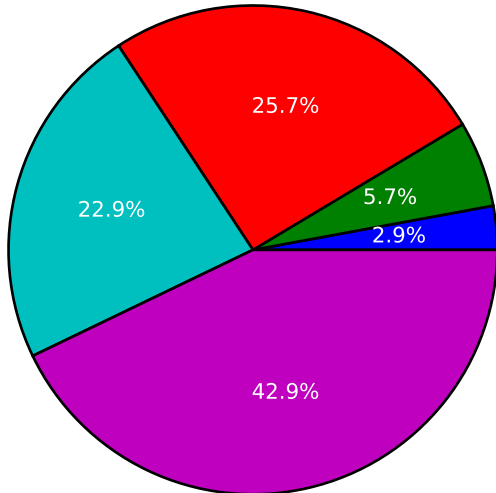

I felt comfortable asking questions at the workshop.

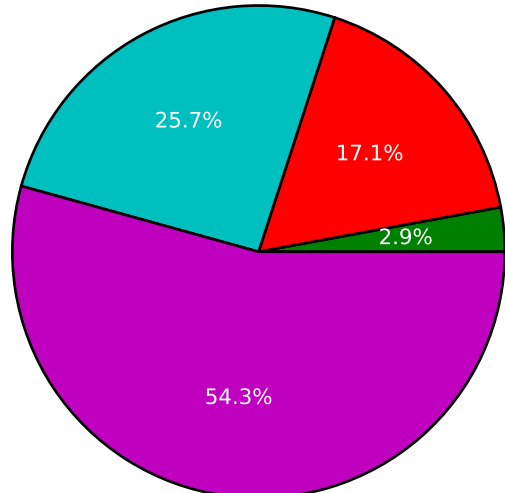

I enjoyed the workshop and learned something interesting.

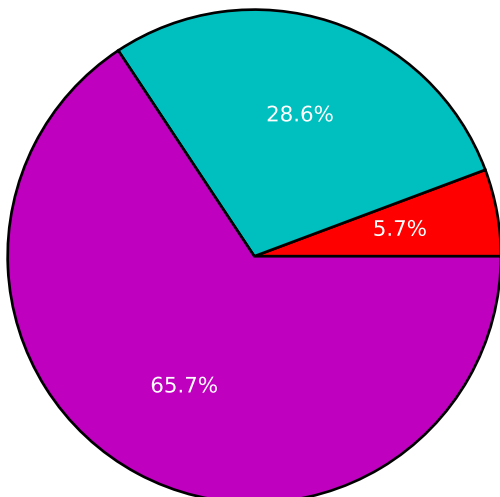

I think I would enjoy the workshop leaders' job.

The workshop made me feel like I can have a job in science, engineering or math.

I enjoyed listening to my workshop leader give their presentation.

Comments

Great Job. I wish I could be a doctor too, but I haven't decide what kind.

Make it more realistic but also with simple skills

To be honest the activities were kinda boring compared to my other classes, bt the cool stickers the workshop leaders gave me made this class worth it

Thank you!

I liked the class. I would do it again. Thank you!

Good way of presenting how and why the 3 ways had to do with something with medical

Thank you for this wonderful and awesome hour
